Clean title in hand.

I bought this car back in February after my 93' Legacy SS was totaled. I got it as rough as could be with many things that needed attention.

Currently at 152,000 miles. Head gaskets are not leaking.

Repairs, maintenance and upgrades done since I have owned it:

OEM Lamco white face gauges

lowering springs, unsure of brand.

JDM Aluminum front lower control arms with new 05' WRX endlinks

2006 WRX 17mm rear sway bar and endlinks.

New front struts (KYB GR-2)

New front brake pads and rotors

New rear brake pads and resurfaced rotors

New clutch

Complete leather interior including door panels and rear cards

Got rid of the blue STi carpet and replaced with dark grey RS coupe carpet

New timing belt, thermostat and idler pulleys (water pump was not leaking and in good shape)

New valve cover gaskets and spark plug tube seals

New right front wheel bearing and hub

Fresh oil change with filter

New windshield

New front and rear oxygen sensors (car still needs a cat, but it just passed emissions test three months ago, still have passing report)

New windshield

New drivers door window motor

Installed OEM keyless entry with new fob

Flat fuel door installed with proper interior release

JDM taillights

New right headlight and corner marker

Most of the interior trim has been replaced due to previous owner painting all the trim white, and it looked terrible.

The bad...

This car has been involved in a collision at some point in its life. There is some bondo on the left rear quarter panel that is cracking, and the hood is dented some by the grille. Also, the right fog lamp is missing, but the winter fog covers are installed.

But, again it is clean title.

I just drove this car to Las Vegas, L.A. and back with no problems, averaging 33 mpg. I wouldn't hesitate to do it again.

-Ryan

I do have a set of Prodrive P1 wheels 17"x7" that can be included in the sale for an additional \$500.00 if you like, otherwise it comes with the OEM 6 spokes.
